## Forthcoming instances

- New type of instances: forthcoming (forthcoming field in the config, default false)
- Those instances only exist in the configuration
  - however, resources are fully accounted for
  - can be moved and renamed just as real ones

◆□▶ ◆□▶ ◆三▶ ◆三▶ 三三 のへで

are also balanced by htools

Forthcoming instances	OS Installations	htools	Job Filtering	MaintD	The End
